

## C++ Programmig Language - Professional Programmer

### © Copyrights C++ Institute

- \_CPP – C++ Certified Professional Programmer
  - **\_1. STL sequential containers**
    - \_1.1 Quick introduction to Standard Template Library.
    - \_1.2 Sequence containers
    - \_1.3 Iterators
    - \_1.4 Operations
    - \_1.5 Container adaptors
  - **\_2. Associative STL containers**
    - \_2.1 Introduction
    - \_2.2 Set and multiset
    - \_2.3 Map and multimap
  - **\_3. Non-modifying operations**
    - \_3.1 Non-modifying operations
  - **\_4. Modifying STL algorithms (operations)**
    - \_4.1 Modifying STL algorithms (operations)
  - **\_5. Sorting STL algorithms**
    - \_5.1 Sorting algorithms
  - **\_6. Merging STL algorithms**
    - \_6.1 Merging algorithms
  - **\_7. Utilities and functional tools**
    - \_7.1 Utilities and functional tools STL part
  - **\_8. Advanced input and output**
    - \_8.1 Introduction
    - \_8.2 File input and output
  - **\_9. Templates**
    - \_9.1 Introduction to templates
